

**NEW EDITION!** A comprehensive review of the changing patterns of the international pulpwood fiber trade.

The *International Pulpwood Trade Review* has long been the standard for those in the business of international trade of woodchips and pulplogs. This study examines the markets for globally traded pulpwood fiber and on pulpwood resources for domestic and export supply in more than 35 countries. This study also includes data on specialized woodchip carriers, examines the international market for biofuels and provides woodchip price projections for 2008-2012.

### Study Features:

- Detailed information on the major players in this market
- Analysis of trade volumes, prices & trends
- Global fiber trade predictions
- Regional analysis of changes in consumption/supply
- Analysis of international biofuels markets

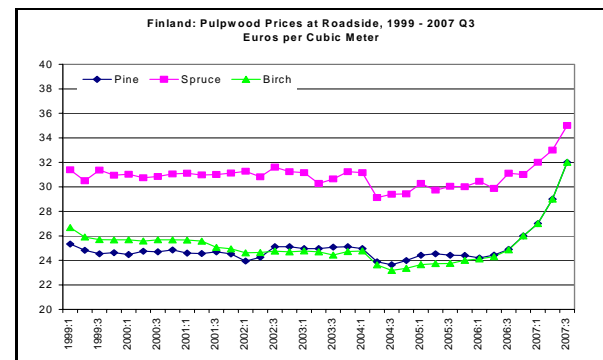

The 15<sup>th</sup> annual edition of the *International Pulpwood Trade Review*, will continue to provide the following updated information:

### Detailed Information on changes to Global Supply

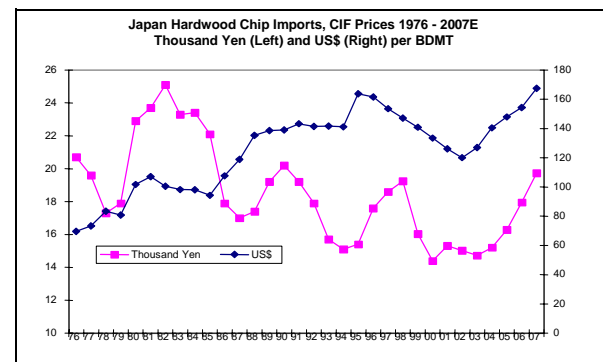

- Analysis of alternative fiber sources
- Species being planted/harvested.
- Impact of incentive and certification programs
- Resource trends and outlook
- Fiber supply forecasts

### Detailed Information on changes to Global Demand

- Analysis of pulplog and woodchip markets, and woodchip exporters and buyers
- Import volume by species and source
- Price trends by species and supplying country
- Economic outlook and fiber import forecast

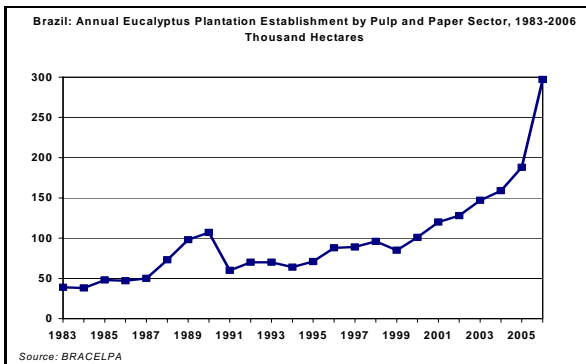

Finland pulpwood prices: Impact of Russian export tax?

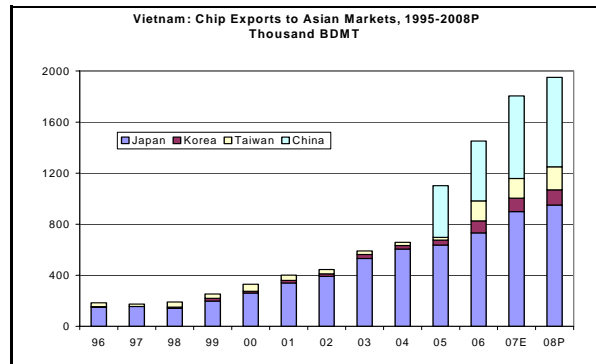

Nominal prices for imported hardwood chips in Japan hit record levels in 2007.

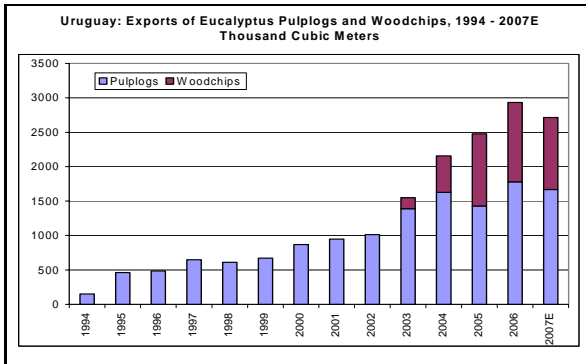

Contact details for woodchip and pulplog suppliers and buyers.

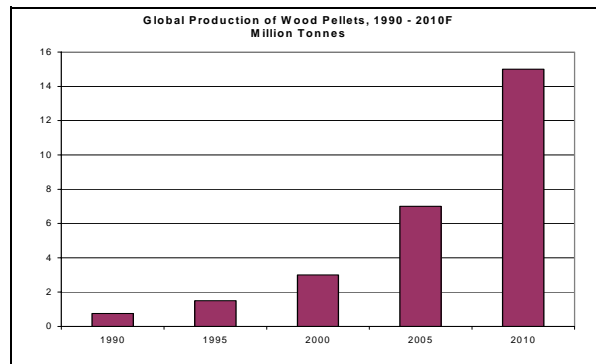

*Surge in new eucalyptus planting signals Brazilian plans for pulp expansion.*

*Vietnam exports of woodchips: are they sustainable?*

*What impact will new pulp mills have on eucalyptus exports from Uruguay?*

*Wood pellet production is expanding rapidly, but will there be enough markets?*

The Review has become an essential tool for operators of existing tree farms and new plantations; woodchip importers/exporters, pulp producers, transport/shipping companies and investors. More than 70 export facilities are profiled, including several new facilities in 2007 – 2009. The Review features a comprehensive database of material in text, table, and chart form.
