Introduction

Currently, Yiwu has the largest wholesaling market around the world. The business area of the market covers 1,500,000 square meters, gathering 320,000 kinds of commodities from all over the country with a daily customer flow of more than 200,000 person-times, and the daily output of commodities up to nearly ten thousand tons. Up to now, more than 300 overseas trading offices and 10,000 foreign purchasers have resided in Yiwu.

We will also strengthen the organization of professional buyers by means of many ways and channels, including holding symposiums and news releases, advertising on newspapers and magazines, promoting the exhibition extensively among the buyers, and organizing audience. In order to further enlarge the influence of the exhibition in the world, and meet the demand of domestic enterprises to expand the overseas market, we will take a series of measures to organize international buyers extensively to visit the exhibition.

550-600 standard booths for about 300 participating enterprises; 50,000 professional exposition audiences, including over 5000 foreign ones.
